

# CUNY Service Corps

## Learn to Serve and Serve to Learn through STEM

Interested in getting real-world experience and serving NYC through STEM? Join the Service Corps and work in a nonprofit or government agency for a 12-hour-per-week project beginning in September 2016.

Corps members teach youth about STEM while receiving mentorship from scientists, guide hospital patients through the health care system, deliver nutrition education courses, perform energy use audits, and more.

### Recent STEM partnerships include:

#### Education Placements

New York Academy of Science and NYC  
Department of Youth and Community  
Development  
Snug Harbor Cultural Center  
& Botanical Garden
